

CAREERS LINKED TO GEOGRAPHY

Where could geography take you?

YEAR
13

The water cycle and water insecurity

- Processes in the water cycle
- Causes and impacts of water insecurity

The carbon cycle and energy security

- How the carbon cycle supports planetary health
- Consequences of increasing demand for energy

Health, Human rights, and Intervention

- Why human rights vary from place to place
- Uses and debates around human rights

YEAR
12

Coasts

- Coastal processes and landscapes
- Managing coasts for people

Globalisation

- Causes of globalisation
- Impacts on places, people and the environment

Tectonics

- Causes of tectonic hazards
- Management and impacts

Superpowers

- How superpowers influence the world
- Changing influence over time

Diverse Places

- Population structures
- Causes of demographic change

YEAR
11

Development Dynamics

- Global inequality and how to reduce it
- Emerging countries: challenges and opportunities

Challenges of an Urbanising World

- Causes and challenges of rapid urbanisation
- Quality of life in cities

People and the Biosphere

- Importance of biodiversity
- How humans use and modify resources

Forests under Threat

- Threats to forests
- How deforestation affects people and places

Consuming Energy Resources

- Growing demand for energy
- Environmental consequences

YEAR
10

Hazardous Earth

- Causes and impacts of tectonic activity
- Managing tectonic hazards

The UK's evolving human landscape

- How places and people are changing
- One major UK city (London)

The UK's evolving physical landscape

- Processes shaping landscapes
- Coasts and rivers in the UK

Fieldwork Geographical Investigations

- Skills for fieldwork
- Investigating urban or coastal areas

YEAR
9

Superpowers

- How the USA became a superpower
- Rise of the next superpower?

Population including China

- Measuring populations
- Why population is changing

Hazardous Earth

- Our world's hazards
- Responding to tectonic hazards

UK Physical Geography

- Physical processes
- How they shape our landscape

Globalisation

- What drives globalisation?
- Challenges of globalisation

Urbanisation GCSE Taster

- How urbanisation is changing the UK
- Benefits and challenges

YEAR
8

Weather and climate

- Weather and climate change
- Our changing climate

Uneven Development including India

- Why development varies
- India: a country in transition

Energy and Plastics

- Energy choices
- Impacts of plastic use

Biomes

- World biomes
- Why do biomes vary?

Coasts

- Coastal processes
- Managing our coastlines

Human Rights

- What are human rights?
- Why they matter

YEAR
7

Being a Geographer

- What is Geography?
- How geographers use it

UK Human

- UK population and change
- Why has it changed?

Rivers

- River processes and landscapes
- Managing rivers and flooding

The cryosphere

- Ice and snow landscapes
- Changing ice environments

Africa and Nigeria

- Life in Nigeria
- Opportunities and challenges

The Middle East and Dubai

- Physical and human geography
- Opportunities and challenges

Curiosity

Resilience

Respect

Global Awareness

Critical Thinking

Sustainability

Empathy
